104 parameters · 9 sections · plain CC, no NRPN · transcribed from the maker's manual

Channels

Everything here listens on the MIDI base channel and reaches tracks 1 to 4. The identical numbers control tracks 5 to 8 on base channel plus 1, tracks 9 to 12 on plus 2 and tracks 13 to 16 on plus 3.

How to read it

The chart names the first four tracks, BD, SD, HT and MT. On the next channel the BD rows move track 5, the SD rows track 6, and so on. Param 1 to 8 follow the machine loaded on the track.
