Synth

Sonicware LIVEN Texture Lab

51 parameters · 7 sections · plain CC, no NRPN · transcribed from the maker's manual

A granular map

The map reads like the machine: grain size, position, density and diffusion are the sound, and two modulators are wired to them.

Freeze

Freeze is a switch on CC 31, so a foot or a sequencer can hold the texture.

Grain	13
Sample	32
Size	33
Timing	34
Density	35
Diffusion	36
Pitch	37
Position	38
Length / Feedback	39
Speed	40

These controls as knobs on your iPhone or iPad

Sequentia has this chart built in, with a looper for knob movement and tempo-locked LFOs on any CC.
